

Workshop Research in Swiss Architecture - Standards, Politics and Funding

Wednesday, February 10, 2021

Architekturrat der Schweiz
Conseil suisse de l'architecture
Consiglio svizzero dell'architettura
Architecture Council of Switzerland

Wednesday, February 10, 2021

While our last workshop, which took place in november 2020, discussed positions focusing on "Design as Research", the aim of this workshop, hosted by the *Accademia di architettura* in Mendrisio, will be to receive a better understanding from the various bodies, such as foundations, industry and politics and their perspective on architectural research. Among others questions of the distribution of funding will be discussed, but also the criterias of how architectural research is judged and evaluated.

Ort: Zoom: <https://hslu.zoom.us/j/5053407969>
Meeting-ID: 505 340 7969
