swiss summer school 03

1 city, 2 schools,
3 places

4.-11.
september 2022

The SwissSummerSchool is organized by the Swiss Association of Schools of Architecture and represents, in the form of a week of projects, a new educational format and a platform for discussion, common to all schools of architecture.

The third edition of the Swiss Summer School proposes to realize a collective work aimed at the production of visual guides of architecture and the contemporary territory of Mendrisiotto. From logistic centers to infrastructures, from naturalistic landscapes to public spaces and cultural heritage, until the most significant architectures, this territory will be brought to the attention of a wider public through photographic and video narration.

The results of the photographic „field work“ and video filming will be edited collectively and in real time by the students, discussed daily during the week and finally presented either in the form of a photo album or a „video essay“.

Mendrisio
SUPSI Architettura
USI Accademia di architettura

7 days, 60 students,
12 professors

The participants will each visit three places according to a logic of investigation and narrative that they consider useful for understanding the urban and architectural phenomena of the Mendrisiotto. The objective is to acquire a new awareness of the everyday landscape, understood as a palimpsest where the meanings and ambitions of the populations are collected.

Conditions of participation

National and international students of architecture are eligible for participation after prior application (3 DIN A4 pages work sample, 1 DIN A4 page CV digital as a PDF, 5 MB maximum). Participation fee is CHF 250.-; accommodation and one meal per day are provided. Participants will receive 2 ECTS credit points.

Applications are until 25th of July
